

SWISS NEWERA

DIGITALWELL ACADEMY | ZÜRICH

SEPTEMBER 2026 - JULY 2027

Grow with confidence. Shape the future.

Learning at Swiss NewEra A guide for families

Academic foundations. Creative expression.
Future skills. Community.

THINK & BUILD

STEM, programming, AI and cybersecurity

GROW ACADEMICALLY

German, French and Gymi preparation

CREATE & EXPRESS

Theater, music and performance

CONNECT & BELONG

Sunday Club and shared learning

Regular courses: afternoons and weekends.
Brain Boost Camp: full days every school holiday break.

Schaffhauserstrasse 550, Raum E096, 8052 Zürich
044 811 11 88 | info@swissnewera.com | www.swissnewera.com

WELCOME

A thoughtful place to learn.

Children need knowledge, opportunities to create, and the judgment to make good choices in a changing world. At Swiss NewEra, these grow together.

Learning that supports life today and tomorrow

We help children strengthen academic foundations, explore their interests and use technology with purpose. The aim is greater independence: a learner who can explain an idea, ask a useful question and take the next step with confidence.

Progress you can recognise

Each regular course combines guided practice with work your child can discuss and share. A starting-point activity helps us understand their needs. A midpoint review and a written end-of-course progress note make the next steps clear.

Technology with a human purpose

Coding, AI and connected devices are explored alongside privacy, evidence, attention and responsible choices. Learners consider the effect of technology on people and everyday routines while developing practical skills.

Small groups. Clear communication.

Taught groups have up to eight learners; group Gymi preparation has up to five. Tasks reflect age, level and confidence. Before enrolment, we discuss the right group, course dates, fees and collection arrangements with your family.

Program year: September 2026-July 2027. Fees shown apply to the September-February package: 18 dated sessions, six payments. March-July dates and fees are confirmed separately.

ACADEMIC FOUNDATIONS

Understand more. Work with confidence.

Structured support in German and Gymi preparation, with space to ask questions, practise and explain a method.

German | Monday, 16:45-18:00**Grades 3-5 | 75 minutes | Up to 8 learners**

CHF 129/month - 6 payments, CHF 774 total - 18 sessions.

Reading comprehension, vocabulary, grammar, spelling and purposeful writing. Children practise finding meaning in a text, building clear sentences and improving a draft.

Gymi preparation | Wednesday**Grade 6, one-to-one | 13:50-15:50**

CHF 579/month - 6 payments, CHF 3,474 total.

Grades 5-6, group of up to 5 | 16:00-18:00

CHF 229/month - 6 payments, CHF 1,374 total.

Both formats: 18 sessions of 120 minutes.

A CLEAR TEACHING PROGRESSION

- **Establish the starting point:** use recent work and a short diagnostic activity to identify priorities.
- **Secure the foundations:** work on Maths reasoning, German comprehension and structured writing.
- **Apply and review:** use suitable past-paper tasks, timed sections and feedback to develop exam habits.
- **Build independence:** practise checking work, managing time and explaining a solution.

Grade 5 learners focus on secure foundations; Grade 6 learners receive more exam-specific practice. Individual sessions follow a personal pace. Preparation supports readiness; admission depends on the official examination and eligibility requirements.

THINK & BUILD

Create technology. Keep your own judgment.

STEM + Programming + Cybersecurity combines practical building with the skills to question, protect and improve the digital world.

Tuesday | 16:50-18:50

Ages 9-17 | Up to 8 learners

CHF 189/month - 6 payments, CHF 1,134 total

18 sessions of 120 minutes. Standard materials and progress feedback included.

WHAT LEARNERS EXPLORE

- **Programming and STEM:** logic, algorithms, Python or visual coding, debugging and practical challenges.
- **AI and evidence:** how models use examples, where outputs can fail, and how to check a claim or suggestion.
- **Cybersecurity:** account protection, phishing, impersonation, permissions, updates, reporting and recovery.
- **Robotics and IoT:** sensors, connected devices, data flows and privacy-conscious design.
- **Digital well-being:** attention, persuasive app design, healthy routines and respectful online behaviour.

A project with a useful purpose

Learners identify a need, sketch a solution, build a small prototype, test it and explain their decisions. Depending on level, this may be a game, a simple robot, a sensor demonstration or an accessible digital tool. Work includes checking privacy and considering a non-digital alternative.

Younger or less experienced learners use concrete tasks and supported coding. Experienced teens take greater responsibility for evaluation and documentation. Lessons use fictional identities, synthetic data and teacher-controlled environments.

«The Analytical Engine weaves algebraical patterns just as the Jacquard-loom weaves flowers and leaves.»

Ada Lovelace, Notes by the Translator, Note A (1843)

LEAD

Turn ideas into action.

Strategic Leadership & Life Skills gives young people practice in making decisions, working with others and creating something of value.

Friday | 17:00-19:00

Ages 12-17 | Younger advanced learners considered after assessment

CHF 189/month - 6 payments, CHF 1,134 total

18 sessions of 120 minutes. Standard materials and progress feedback included.

THE CURRICULUM

- **Strategic thinking:** define a problem, compare options and consider consequences.
- **Financial literacy:** earning, saving, budgeting, cost, price and value in a Swiss-franc context.
- **Entrepreneurship:** understand a need, develop an idea and test it with feedback.
- **Communication and teamwork:** listen, negotiate, share responsibility and present a reasoned position.
- **Responsible AI:** use assistance thoughtfully, check evidence and explain the learner's own contribution.

From a real question to a clear proposal

Across the course, learners define a problem, create a budget, develop a prototype or proposal, test assumptions and prepare a final presentation. The process rewards thoughtful revision as well as a convincing result.

The core group is ages 12-17. Younger advanced learners are considered individually based on comprehension, collaboration, independence and comfort with the group. Early entry is discussed with the family rather than assumed from age alone.

«Determine that the thing can and shall be done, and then we shall find the way.»

Abraham Lincoln, Speech on Internal Improvements (1848)

CREATE

A voice of their own.

Theater, Music & Performance offers children a welcoming place to express ideas, listen to others and create together.

Thursday | 16:45-18:30

Ages 6-17 | Up to 8 learners; activities adapted to age

CHF 139/month - 6 payments, CHF 834 total

18 sessions of 105 minutes. Standard materials and progress feedback included.

THE CURRICULUM

- **Voice and rhythm:** breath, articulation, singing, listening and musical patterns.
- **Character and movement:** explore emotion, intention and stage space through play and improvisation.
- **Story and text:** develop dialogue, poems, short scenes and creative writing.
- **Ensemble work:** rehearse, respond to feedback and take responsibility for a shared performance.

Confidence grows through contribution

Children can contribute through speaking, singing, movement, writing or simple production roles. The course moves from playful exploration to a shared piece of work, with opportunities to reflect on personal progress.

Age and readiness guide task selection. Younger children work with shorter scenes and repetition; older learners take more ownership of writing and production. Any audience, recording or sharing arrangements are discussed with families.

«All the world's a stage.»

William Shakespeare, As You Like It, Act 2, scene 7

COMMUNICATE

French you can use.

French School helps learners build confidence through conversation, stories and purposeful practice at an appropriate level.

Saturday | 09:00-11:00

Children and teens | Placement by language level and age

CHF 149/month - 6 payments, CHF 894 total

18 sessions of 120 minutes. Standard materials and progress feedback included.

THE CURRICULUM

- **Speaking and listening:** everyday exchanges, useful questions, pronunciation and understanding others.
- **Reading:** stories and age-appropriate texts, vocabulary in context and explaining meaning.
- **Writing:** sentences, messages, descriptions and progressively longer texts.
- **Grammar and vocabulary:** practise patterns within real communication rather than as isolated rules.

Different starting points, meaningful next steps

Beginners receive visual support, model phrases and oral practice. Developing learners build connected sentences and short dialogues. Confident or heritage speakers explore richer texts, sustained writing and discussion. Placement is agreed before enrolment.

A course project may be an illustrated story, dialogue, short presentation or written message. Families receive examples of progress and a practical next learning goal.

«Patience et longueur de temps font plus que force ni que rage.»

Jean de La Fontaine, Le Lion et le Rat (1668)

HOLIDAYS & BELONGING

Discover more. Feel part of something.

School-holiday camps are separate from the regular timetable. Sunday Club brings reading, creativity and friendly games into the week.

Brain Boost Camp | Every school holiday break

School holidays only | 5 full days | 08:45-16:45

CHF 699 per child, including lunch and working materials

Group A: ages 7-11. Group B: ages 12-18.

Coding challenges, digital safety, gaming balance, privacy, advertising awareness and online kindness, with age-matched practical activities. The camp is booked separately from semester courses.

Sunday Club | Sunday, 14:00-17:00

Reading, painting, poetry and chess

Included while enrolled in another running paid Swiss NewEra program. Club-only membership: **CHF 50 per child per year**.

Children can read together, create, discuss ideas and enjoy friendly chess. Registration and available space apply; groups and activities reflect age and confidence.

Flexible support & seasonal activities

Homework support: CHF 40 per hour, booked by arrangement in the afternoons or at weekends. Optional monthly wallet: CHF 160 for four hours.

Individual subject tutoring: CHF 75 per hour, or CHF 300 for a four-hour monthly wallet.

Gifts from the Heart: CHF 280 for eight 90-minute seasonal activities; dates confirmed before booking.

Unused wallet hours roll forward within the semester and are refunded at its end. Stop an optional wallet before the next renewal. Adult Languages Café, Parent Academy and additional workshops are available for enquiry, with a separate quote.

YOUR WEEK & YOUR FEES

Plan with confidence.

Program year: September 2026-July 2027. Fees shown apply to the September-February package: 18 dated sessions, six payments. March-July dates and fees are confirmed separately.

DAY / TIME	COURSE	CHF / MO.	TOTAL
Mon 16:45-18:00	German, grades 3-5	129	774
Tue 16:50-18:50	STEM + Programming + Cybersecurity	189	1,134
Wed 13:50-15:50	Gymi, grade 6, one-to-one	579	3,474
Wed 16:00-18:00	Gymi group, grades 5-6	229	1,374
Thu 16:45-18:30	Theater, Music & Performance	139	834
Fri 17:00-19:00	Strategic Leadership & Life Skills	189	1,134
Sat 09:00-11:00	French School	149	894

How payment works

Six monthly instalments cover the whole 18-session course block; they do not promise four lessons in every calendar month. The dated calendar accounts for school holidays and non-teaching weeks. Late starters receive a quote for remaining sessions, without retrospective charges.

Access and family savings: eligible KulturLegi offers receive 30% off. Two combined group courses: 5%; three or more: 10%. Sibling: 15% off the second child's eligible course fees. Discounts do not stack; your written quote confirms the best applicable price.

[JOIN SWISS NEWERA](#)

A clear first step. A personal conversation.

Tell us about your learner and the course they would like to try. We will discuss placement, availability and the details before confirming a place.

HOW TO REGISTER

- **1 / Complete the registration request:** provide guardian contact details, the learner's age and grade, and your preferred course or camp.
- **2 / Submit online:** review your details and send the online request. The academy receives it by email. No payment is taken and no place is automatically reserved.
- **3 / Receive confirmation:** Swiss NewEra agrees the group, dates, final fee, payment arrangements and enrolment terms with you. A request alone does not reserve a place.

Try a group course | CHF 45

The trial follows the chosen course's usual duration: 75, 105 or 120 minutes. Its fee is credited against that course if you enrol, or refunded if it is not the right fit, under the agreed trial terms. Ask separately about individual-tuition assessments.

Know what happens next

Materials, classroom software and project-kit use are included in regular course fees. Collection arrangements, absence and make-up policies, withdrawal terms and any optional extra costs are explained before payment. Provider-cancelled lessons are replaced or refunded pro rata.
